World Environment Day Celebrated at Peshawar Medical College with Plantation Drive

June 5, 2026 - To mark World Environment Day, a prestigious tree plantation ceremony was organized at Peshawar Medical College (PMC). The environmental initiative was arranged by the Social Welfare Society (SWS) of PMC to promote a greener and healthier ecosystem.

The event was led by distinguished academic and institutional heads. Prof. Dr. Hafiz ur Rahman (Dean of PMC) , Dr. Abdus Samad (Chief Executive Officer) Prof. Dr. Zahoor Swati (Director of Riphah International University Peshawar Campus) and Prof. Dr. Mohsina Haq (Chairperson of SWS), who planted ornamental trees to signify the institutional commitment to environmental conservation.

The ceremony saw active and enthusiastic participation from the office bearers and volunteers of the Social Welfare Society (SWS).

Peshawar Dental College Hosts Multidisciplinary Seminar on Thalassemia

June 6, 2026 -Peshawar Dental College organized a multidisciplinary seminar on Thalassemia to mark World Thalassemia Awareness Day, focusing on the oral manifestations and clinical management of the disease. The event was attended by senior faculty and undergraduate students.

The academic session was led by final-year BDS students divided into five multidisciplinary teams. Student speakers covered the epidemiology, classifications, genetic inheritance, clinical presentation, and preventive strategies of

thalassemia. A dedicated session highlighted the dental complications associated with the condition, emphasizing the role of dental professionals in early diagnosis and interdisciplinary care. Speaking on the occasion, Acting Dean Prof. Dr. Hasham Khan shared expert insights on the specialized dental management

protocols required for pediatric thalassemia patients.

Faculty members evaluated the presentations to encourage evidence-based learning and critical thinking among the students. The seminar concluded with the distribution of certificates to

the student presenters and contributors in recognition of their academic efforts.

Prime Teaching Hospital Achieves New Milestone in Advanced Cardiac Care

June 11: Prime Teaching Hospital, Peshawar Medical College, has achieved another significant milestone in the field of cardiac surgery with the successful performance of an Off-Pump Beating Heart Coronary Artery Bypass Graft (CABG) procedure.

According to hospital authorities, the surgery was successfully carried out on June 11, and the patient made a remarkable recovery and was discharged fully mobilized on June 13. The swift recovery highlights the benefits of advanced cardiac care facilities and the coordinated efforts of a dedicated multidisciplinary team.

The complex procedure was performed by renowned cardiac surgeon **Dr. Amir Zeb**, whose expertise and commitment played a key role in the successful outcome.

Hospital officials termed the achievement an important step towards providing state-of-the-art cardiac surgical services within Khyber Pakhtunkhwa, reducing the need for patients to seek treatment outside the province. They reaffirmed Prime Teaching Hospital's commitment to delivering high-quality healthcare through expert medical professionals, modern facilities, and patient-centered care, bringing advanced heart treatment closer to the people of the region.

VC RMU, Dr. Umar Advocates for Contextualized National Model in Medical Education

PESHAWAR, 12 June 2026- Prof. Dr. Muhammad Umar, Vice Chancellor of Rawalpindi Medical University (RMU), delivered an extension lecture at Riphah Campus Peshawar to an audience of medical educationists, public health experts and clinicians. The event was hosted by Peshawar Medical College (PMC) and Peshawar Dental College (PDC).

During his address, "Changing the Landscape of Medical Education in Pakistan: A Contextualized National Model," Prof. Umar outlined RMU's transformational journey. He advised institutions against reinventing proven systems, urging them instead to adapt global best practices to fit local healthcare needs and cultural ethos.

A central theme was the holistic integration of knowledge, skills, attitudes, and service. Prof. Umar strongly advocated for digitizing educational delivery, governance and institutional accountability. Moving past traditional certification, he championed objective, competency-based assessments driven by student e-portfolios, emphasizing that universities must act as dynamic agents of social change. Earlier the Dean of PMC, Prof. Dr. Hafeez ur Rahman welcomed Prof. Umar.

PMC in collaboration with CIFM Lahore Hosts Open House on Family Medicine Career Pathways

June 13, 2026 - An Open House on postgraduate training in Family Medicine was jointly organized at Peshawar Medical College (PMC), Riphah International University Peshawar Campus and the Central Institute of Family Medicine (CIFM), Lahore.

The event was attended by medical students, house officers, practitioners from public and private sectors, and faculty members from Peshawar Medical and Dental Colleges.

Welcoming the participants, Dean PMC Prof. Dr. Hafeez-ur-Rahman highlighted the role of Family Medicine in strengthening primary healthcare. Dr. Humaira Khattak, AP Family Medicine, then provided an overview of the specialty.

Keynote speaker Prof. Dr. Nasir Shah of CIFM Lahore introduced the MRCGP (International) South Asia qualification. He explained that this competency-based, internationally benchmarked program emphasizes holistic, patient-centered care and equips physicians with advanced clinical and communication skills. He added that the qualification greatly enhances career opportunities both within Pakistan and abroad, including the Gulf region and Australia.

The session concluded with an interactive Q&A on career development, followed by a vote of thanks from Prof. Muhammad Aman Khan, Head of Community Health Sciences at PMC.

Kuwait Teaching Hospital Marks World Hypertension Day

June 18, 2026-The Department of Cardiology at Kuwait Teaching Hospital observed World Hypertension Day by launching a free public screening camp and awareness initiative to combat rising cardiovascular disease in the community.

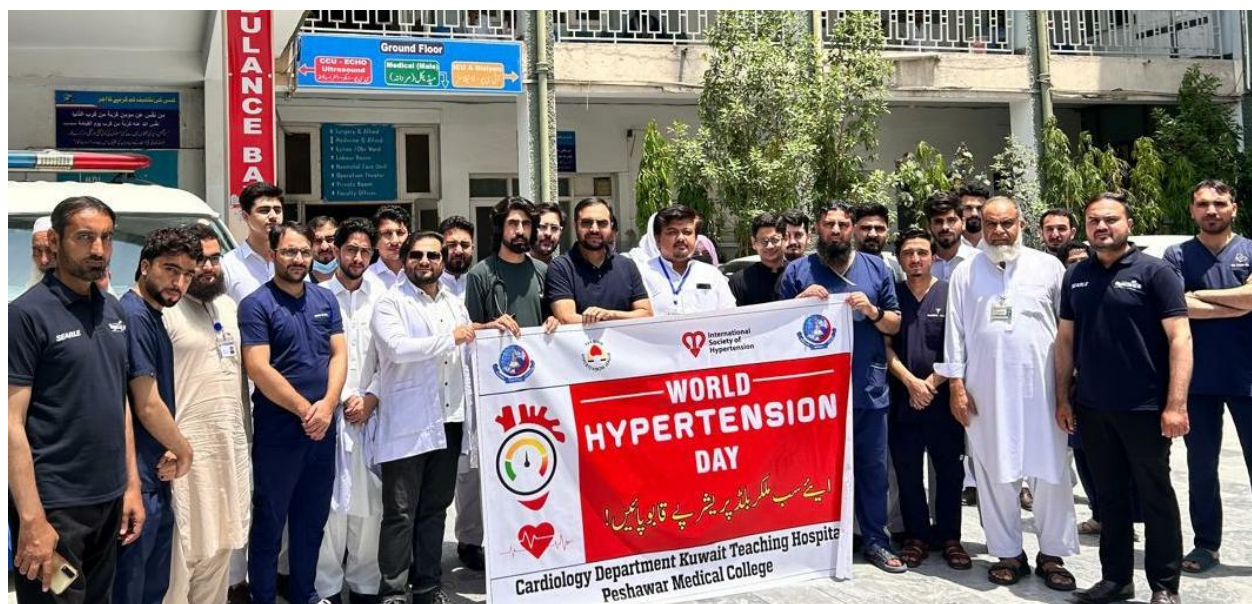

The event, which featured a Continuing Medical Education (CME) accredited seminar and an awareness walk, drew heavy participation from healthcare professionals, patients and the general public.

The hospital established free male and female clinics offering blood pressure checkups, specialist consultations and complimentary ECG and Random Blood Sugar (RBS) testing.

Dr. Muhammad Abdur Rauf, Head of Cardiology, delivered a keynote lecture urging the public to prioritize regular monitoring, lifestyle changes, and strict treatment adherence to prevent severe cardiac complications.

The campaign was heavily attended by hospital faculty, Training Medical Officers (TMOs), house officers, and nursing and paramedic staff.

Hospital leadership commended the organizers and reaffirmed their long-term commitment to expanding preventive cardiology services across the region.

PMC Faculty Member Granted CPSP Supervisorship in Gastroenterology

PESHAWAR: Assistant Professor Mian Shah Yousaf of Peshawar Medical College and Affiliated Hospitals has been granted provisional registration as a supervisor for FCPS training in Gastroenterology by the College of Physicians and Surgeons Pakistan (CPSP).

According to an official certificate, Dr. Mian Shah Yousaf has been approved to supervise FCPS trainees in Gastroenterology at Peshawar Medical College and Affiliated Hospitals, Peshawar.

The development is expected to strengthen postgraduate medical education and specialized training facilities at the institution.

Peshawar Dental College Hosts Seminar on Dental Aesthetics

June 16, 2026) — The Department of Dental Education at Peshawar Dental College successfully concluded a future-focused multidisciplinary seminar titled “Dental Aesthetics,” featuring presentations by final-year BDS students.

The student-led session covered critical modern clinical themes, including:

Digital & Aesthetic Frameworks: Macro, Mini & Micro aesthetics and Digital Dentistry.

Clinical Procedures: Veneers, Tooth Whitening, and Aesthetic Composite Materials.

Surgical & Developmental Care: Gingivectomy, Crown Lengthening, Microdontia, and Hypodontia.

An expert faculty panel provided multidisciplinary feedback, bridging the gap between student theory and global clinical standards. This initiative highlights the college's ongoing commitment to preparing graduates for the evolving dental landscape through teamwork, innovation, and clinical excellence.

Riphah Academic Team Visits RIU Peshawar Campus

June 22, 2026)-An academic delegation from Riphah International University visited the Peshawar campus to review educational standards and foster institutional collaboration.

Campus Director Prof. Dr. Zahoor Swati briefed the delegation on recent academic developments before leading a tour of various campus sections and departments.

Alongside faculty members, PMC's top leadership, including

Dean Prof. Dr. Hafeez Ur Rahman, Executive Director Prof. Dr. Saeed Anwar, CEO Dr. Abdus Samad and Principal Prof. Dr. Fazl-e-Wahab were present. The leaders reaffirmed their shared commitment to excellence in education.

PMC Honours Faculty Members for PhD Degrees

June 30, 2026 - The Peshawar Medical College (PMC) organized a special ceremony to honour more than a dozen of its faculty members who successfully achieved their PhD degrees in Basic Medical Sciences and Dental Sciences. The scholars completed their doctoral studies at Khyber Medical University (KMU), Peshawar, and Riphah International University, Islamabad.

With this milestone, Peshawar Medical College and Peshawar Dental College have officially become the only institutions in Khyber Pakhtunkhwa to feature PhD-qualified faculty members across all Basic Medical Sciences disciplines.

| Associated Press Of Pakistan

The ceremony was attended by key academic figures, including:

Prof. Dr. Najeeb ul Haq, Patron-in-Chief of Prime Foundation

Prof. Dr. Zahoor Ahmad Swati, Director of Riphah International University, Peshawar Campus

Prof. Dr. Zill-e-Huma, Director Academics, Khyber Medical University

Prof. Dr. Umar Malik

Prof. Dr. Hafez ur Rahman, Dean of Peshawar Medical College

Speaking at the event, Prof. Dr. Zahoor Ahmad Swati described the milestone as a landmark achievement, reflecting the institution's unwavering commitment to academic excellence, research advancement, and the continuous professional development of its faculty. Prof. Dr. Najeeb ul Haq congratulated the newly graduated PhD scholars, emphasizing that higher education and post-graduate training are fundamental to strengthening institutional capacity and elevating the quality of medical education.

The event concluded with the presentation of commemorative shields and souvenirs to the PhD graduates and their academic supervisors in recognition of their outstanding scholarly contributions.

PMC holds seminar on Thalassemia prevention and treatment modalities

PESHAWAR: Peshawar Medical College (PMC) hosted a specialized academic seminar focused on the prevention, diagnosis and management of Thalassemia. The event brought together leading medical professionals and students to deliberate over the growing regional burden of this genetic blood disorder. Prof. Dr. Hafiz ur Rahman, Dean PMC, and Vice Dean Prof. Dr. Ahsan Ullah addressed the chief ceremony. The seminar featured comprehensive scientific sessions covering thalassemia epidemiology, genetic inheritance, advanced laboratory diagnostics, and therapeutic strategies. Senior experts deliberated on current treatments for iron overload, chelation therapy and surgical interventions such as splenectomy. Prof. Sana Ali addressed critical ethical and patient safety issues in thalassemia management, while Dr. Shima Rahim highlighted the importance of an interdisciplinary approach and emerging treatment modalities. The seminar also highlighted the pre-symptomatic and financial challenges faced by affected families, underscoring the urgent need for safe, accessible blood transfusion services. Speakers emphasized that Thalassemia Major is highly preventable. They called for a coordinated national effort, emphasizing that public awareness and genetic counseling remain the most effective tools to curb the disease. The event concluded with the distribution of certificates to the speakers and organizers by the Dean and Vice Dean.
