## Hands-On Clinical Workshops at PDC

May 6, 2026- Peshawar Dental College organized two hands-on clinical workshops as part of the Pre-Dental Symposium activities commemorating World Oral Health Day 2026. The workshops focused on enhancing clinical skills, evidence-based practice, and professional development among dental students and practitioners.

The workshop “Mastering the Art of Isolation: Rubber Dam Application” was led by Dr. Zubair with co-facilitators Dr. Amna, Dr. Shahzaman, and Dr. Hafsa.

The second workshop, “Building the Foundation: A Student’s Guide to Implantology,” was conducted by Dr. Mahira Iqbal alongside Prof. Dr. Kawish Syed and Dr. Abira.

The initiative was held under the leadership of Principal PDC, Prof. Dr. Raza, while the Dental Symposium 2026 was chaired by Prof. Dr. Farzeen Khan. The event was successfully organized by Dr. Aamir Hameed and Dr. Hina Rehman, followed by certificate distribution by senior faculty members recognizing participants’ dedication and enthusiasm.

## Peshawar Dental College celebrated World Oral Health Day

May 6, 2026-Peshawar Dental College celebrated World Oral Health Day by organizing a Poster Competition and Awareness Walk to promote healthy smiles, preventive dentistry, and oral health awareness in Peshawar.

Students showcased creative posters highlighting oral hygiene, disease prevention, and healthy lifestyle practices. An awareness walk was also held at Prime Complex, where participants carried banners and

placards spreading messages about the importance of oral healthcare and regular dental checkups.

The event reflected the commitment of Peshawar Dental College toward community oral health education and preventive dentistry, ultimately inspiring individuals to adopt better daily hygiene habits for a healthier, brighter future.

# International Nurses Day Celebrated at Prime Teaching Hospital

May 12, 2026 - Prime Teaching Hospital commemorated International Nurses Day on May 12 by honoring the dedication, compassion, and valuable contributions of its nursing staff toward quality patient care and community service.

A special ceremony was organized in which appreciation certificates were presented to selected nurses and staff members in recognition of their commitment,

professionalism, and outstanding service. The event highlighted the vital role of nurses in the healthcare system and acknowledged their tireless efforts in patient care.

Prof. Dr. Sardar Mohammad graced the occasion and appreciated the dedication and hard work of the nursing community. The administration of Prime Teaching Hospital extended sincere gratitude to all nurses for their unwavering dedication and remarkable contributions to the community.

## Training Session on Professionalism & Workplace Ethics Held at Prime Teaching Hospital

May 8, 2026- Prime Teaching Hospital organized an informative training session on Professionalism & Workplace Ethics for its staff, aimed at enhancing professional conduct and workplace excellence within the healthcare environment.

The session was conducted by Prof. Dr. Tayeb, who shared valuable practical insights on ethical conduct, teamwork, accountability, communication, and professional growth in the workplace. The training emphasized the importance of maintaining high ethical standards and fostering a positive and collaborative work culture in healthcare settings.

Staff members actively participated in the session and appreciated the meaningful discussion on professionalism and workplace responsibilities. The administration of Prime Teaching Hospital thanked Prof. Dr. Tayeb for delivering an inspiring and impactful session for the hospital staff.

## EndoPrime and PGLDS Set New Benchmark with Advanced Endoscopy

May 14, 2026 — In a major milestone for medical education and gastroenterology, EndoPrime, in collaboration with the Pakistan GI and Liver Diseases Society (PGLDS), successfully hosted an intensive advanced endoscopic procedures workshop at Prime Teaching Hospital. The day-long event featured cutting-edge advanced endoscopic procedures and live academic demonstrations, drawing around 40 specialized healthcare participants. The intensive clinical marathon showcased the seamless execution of highly complex, minimally invasive procedures in a single day, including: 9 Endoscopic Ultrasound (EUS) procedures, 7 Endoscopic Retrograde Cholangiopancreatography (ERCP) procedures, 1 Advanced Cholangioscopy. To maximize the educational impact, all 17 local cases were broadcast live to a dedicated training forum, offering attendees real-time insights into complex technical maneuvers and clinical decision-making. Adding significant international weight to the academic program, the event featured a live-streamed broadcast from Turkey. The cross-border transmission showcased a specialized Endo Barrier Device case, allowing local practitioners to observe cutting-edge global techniques firsthand.

The collaborative initiative underscores a shared commitment by EndoPrime and PGLDS to push the boundaries of modern gastroenterology. By bridging the gap between theoretical knowledge and live clinical practice, the event highlighted rapid advancements in endoscopic technology while equipping the next generation of medical professionals with vital skills.

## First-Ever Endoscopic Sleeve Gastroplasty (ESG) Introduced in KP in PTH

May 7, 2026- The Gastroenterology team of Prime Teaching Hospital, Peshawar, has achieved a major healthcare breakthrough with the introduction of Endoscopic Sleeve Gastroplasty (ESG) for the first time in the province. This landmark advancement brings state-of-the-art, non-surgical bariatric care directly to the region.

ESG is a cutting-edge, minimally invasive weight-loss procedure performed entirely through an endoscope, requiring no incisions and offering faster recovery times for patients battling obesity.

Reflecting on the achievement, the medical team expressed profound gratitude:

"Alhamdulillah! This success is a result of professional dedication, guided by the vision, continuous support, and prayers of our respected seniors and mentors. May Allah grant further success and make this initiative a source of healing for countless patients."

The launch marks a significant step forward in aligning local healthcare with international standards, ensuring safe, innovative medical procedures are accessible to the people of KP.

## Annual Girls' Sports Week 2026 Concludes at Peshawar Medical College

May 9, 2026 – The PMC Girls' Sports Week 2026 concluded with a formal grand finale and awards banquet on the Peshawar Medical College (PMC) main lawn. Attended by senior faculty, including Dr. Ayesha Abdullah, Dr. Fauzia Rauf, Dr. Farhat Malik, and Dr. Farzana Salman, the evening celebrated winners with trophies, honored the organizing cabinet with shields, and closed with a lavish dinner. This memorable evening perfectly culminated an action-packed week dedicated to community, health, and sportsmanship.

Hosted by the Girls' Sports Society from April 23rd to 27th, 2026, the five-day event balanced physical well-being with academic excellence. The week launched with an energetic student procession inaugurated by Chairperson Dr. Shafaq Zafar and Director Dr. Mohsina Haq. Marching under creative banners, the 1st Year ("Powerpuff Girls") and Final Year ("Star Strikers") jointly won the "Best Entry" title.

A highly anticipated Faculty vs. Students tug-of-war match served as a major highlight, bridging generational gaps and strengthening campus bonds.

The competitive drive remained

intense, but two groups dominated the final leaderboard:

Overall Champions: The 3rd Year MBBS class emerged as undisputed champions with 15 victories.

The event beautifully showcased PMC's commitment to developing well-rounded medical professionals.

## First-Ever PhD Classes Inaugurated at Riphah International University Peshawar Campus

May 9, 2026 – The formal inauguration of the first-ever post-graduate (PhD, M. Phil ) classes at the Department of Islamic Studies, Riphah International University (RIU) Peshawar Campus, was held. Prof. Dr. Qibla Ayaz, former Chairman of the Council of Islamic Ideology, graced the occasion as the Chief Guest to mark the commencement of the department's advanced academic sessions.

Addressing the ceremony, Prof. Dr. Qibla Ayaz highlighted Riphah's significant role in the dissemination of quality knowledge. He emphasized the necessity of an indigenous education system to develop scholars capable of tackling modern social complexities. Dr. Ayaz urged the inaugural batch of students to look beyond simple coursework and notes, striving instead for in-depth knowledge and rigorous research to address contemporary challenges, particularly issues within the family system.

Prof. Dr. Najibul Haq, Patron of the Prime Foundation, emphasized the profound responsibility of students and scholars as the "heirs of the Prophets." He stated that the Ulema must act as guides to unite the Ummah and provide a research-based shield against cultural invasions. He stressed that academic research must find practical applications to remain useful for the progress of society.

Prof. Dr. Zahoor Swati, former Vice Chancellor Agriculture University and Director of RIU Peshawar Campus, welcomed the guests and students while detailing the aims and objectives of the program. He stated that the university's mission is for the Department of Islamic Studies to serve as a "Model Department" focused on character building, ultimately becoming a role model in higher education by producing graduates who embody Islamic values and academic excellence.

The formally performed the ribbon-cutting to mark the session's start. Prof. Dr. Sahib Islam, Chairman of the Department of Islamic Studies, then led a collective prayer (Dua) for the success of this noble academic cause.

## 78<sup>th</sup> PF Board of Directors Meeting Held at PMC

## PMC and NRKNA Sign MoU to Establish Regional Centre and Promote Seerat un Nabi (PBUH)

PESHAWAR (May 8, 2026) –

The National Rahmatul Lil Aalameen Wa Khatam un Nabiyyin Authority (NRKNA), Islamabad and Peshawar Medical College (PMC) have officially signed a comprehensive Memorandum of Understanding (MoU) aimed at fostering academic, research and media collaboration to promote the teachings of Seerat un Nabi (PBUH).

## New Dental Check-Up Facility Inaugurated at Mercy Pak School

May 18, 2026 - A newly established dental check-up facility was formally inaugurated at Mercy Pak School Duran pur, Peshawar. The new setup aims to provide accessible oral healthcare services and promote dental hygiene awareness directly among school children.

The successful establishment of the facility was made possible through the technical expertise and dedicated cooperation of Peshawar Dental College (PDC). The school administration extended its deep gratitude to Dr. Shahab and Dr. Hashim from PDC for their pivotal role, vision, and continuous support in bringing this health initiative to life.

With the launch of this facility, students at Mercy Pak School will now benefit from regular dental screenings, preventive care, and early treatments, ensuring that health and education go hand in hand for the well-being of the region's youth.

## Training Session on blood transfusion organized at PTH

May 9, 2026- A specialized training session on blood transfusion service protocols was held at Prime Teaching Hospital, Peshawar, to enhance clinical safety and blood banking standards.

The session was facilitated by renowned expert Dr. Mohammad Ashraf Khan, who provided comprehensive guidance to healthcare professionals and laboratory staff. The training focused on critical areas including strict Standard Operating Procedures

(SOPs) for blood collection, advanced screening methodologies to prevent infections, hemovigilance and the rational use of blood components.

Dr. Mohammad Ashraf Khan emphasized that continuous training on updated transfusion protocols is vital to eliminating errors and safeguarding patient lives. The management of Prime Teaching Hospital reiterated its commitment to maintaining international safety standards across all its clinical services.

## Certificate Distribution Ceremony Marks Successful Completion of ECG Workshop at PMC

May 14, 2026 - A formal certificate distribution ceremony was held at Kuwait Teaching Hospital, Peshawar, Medical College (PMC) on, to honor House Officers from Kuwait Teaching Hospital who successfully completed a specialized one-day ECG Workshop.

The workshop, organized by the Department of Cardiology at PMC during the month of April 2026, provided the young doctors with vital, hands-on training in electrocardiogram interpretation—a critical skill for emergency and cardiac patient care.

During the ceremony, senior faculty members awarded certificates to the participants, commending their dedication to clinical excellence.

## PMC Holds Seminar on Thalassemia Prevention and Treatment Modalities

May 21, 2026 - Peshawar Medical College (PMC) hosted a specialized academic seminar focused on the prevention, diagnosis and management of Thalassemia. The event brought together leading medical professionals and students to deliberate over the growing regional burden of this genetic blood disorder. Prof. Dr. Hafeez ur Rahman, Dean PMC, and Vice Dean Prof. Dr. Ayesha Abdullah addressed the closing ceremony.

The seminar featured comprehensive scientific sessions covering thalassemia epidemiology, genetic inheritance, advanced laboratory diagnostics, and therapeutic strategies. Senior experts deliberated on modern treatments for iron overload, chelation therapy and surgical interventions such as splenectomy. Prof. Saima Ali addressed critical ethical and patient safety issues in thalassemia management, while Dr. Uzma Rahim highlighted the importance of an interdisciplinary approach and emerging new treatment modalities.

The seminar also highlighted the psycho-social and financial challenges faced by affected families, underscoring the urgent need for safe, accessible blood transfusion services.

Speakers emphasized that Thalassemia Major is highly preventable. They called for a coordinated national effort, emphasizing that public screening and genetic counseling remain the most effective tools to curb the disease. The event concluded with the distribution of certificates to the speakers and organizers by the Dean and Vice Dean.

## SWS Arranges First-Ever Blood Donation Camp at Prime Teaching Hospital

May 19, 2026 — The Social Welfare Society (SWS) of PMC officially organized its maiden voluntary blood donation camp at Prime Teaching Hospital, marking a proud humanitarian milestone.

The community healthcare event was formally inaugurated by Prof. Dr. Najib-ul-Haq, Patron of the Prime Foundation. Organized under the guidance of Prof. Dr. Mohsina Haq and the dedicated SWS team, the initiative turned out to be an immense success, safely collecting 31 pints of blood.

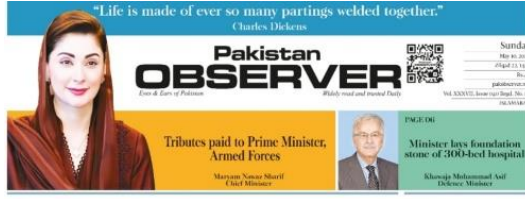

The driving force behind the achievement was the exceptional, equal turnout of both male and female medical students. Their enthusiastic participation demonstrated exemplary unity and a profound collective spirit of public service.

According to SWS leadership, the collected blood units have been processed to fulfill critical, urgent transfusions for needy patients. Organizers emphasized that this successful drive is just the beginning of a long-term roadmap filled with meaningful, impact-driven public welfare initiatives.
